RECENT PROJECT

Redesigned and Rebuilt E-Commerce Project Details Service

- Improved UX by completely rebuilding and re-imagining the UI
- Streamlined component loading in order to decrease page load
- Decentralized the pre-existing, low-performant monolithic API into targeted microservices
- Implemented a series of service optimizations in order to reduce latency and maximize server performance
- Containerized back end service and deployed to multiple AWS EC2 T2 instances
- Deployed NGINX proxy service and load balancing

SKILLS

Project Development
Problem Solving
Creativity
Graphic Design
Illustration
Communication
Public Speaking
Conflict Resolution

TECHNICAL SKILLS

Javascript
React
NodeJS
Express
MongoDB
MySQL/ postgresSQL
Docker
AWS EC2 Deployment

ADDITIONAL

I have exceptional collaboration skills that largely stem from my belief that diversity is at the heart of innovation and collective success. I have a fluid and adaptable problem solving process that is a mesh of interpersonal conflict resolution skills and technical problem-solving strategies. Life as a counselor taught me to utilize the support of my colleagues, and to be a source of reliable support.
